

February 27, 2022

Mayor and Council
Town of Kenaston
Box 129
KENASTON, SK
S0G 2N0

Dear Mayor and Council:

This letter is to advise you that a **Precautionary Drinking Water Advisory (PDWA) is being issued for the Town of Kenaston's drinking water distribution system affecting all users and is effective: Sunday, February 27, 2022 until further notice.**

Water Security Agency protocol is to place systems under a PDWA for watermain breaks causing a depressurization until such a time as the drinking water system is proven safe for human consumptive use. This Precautionary Drinking Water Advisory remains in effect until the safety of the Kenaston's drinking water distribution system can be ensured at all times. Therefore, you are required to notify all affected users of the drinking water distribution system of the conditions in the attached Precautionary Drinking Water Advisory.

This advisory can be rescinded following:

- 1) The leak is located and repaired.
- 2) The system is flushed to applicable standards;
- 3) The receipt of two (2) consecutive sets of three (3) bacteriological samples collected at least one day apart (and marked as 'other') that are negative for bacteriological growth in the final treated potable water being supplied to the distribution system (6 total samples minimum).

Thank you for your cooperation in this regard. For further information please do not hesitate to contact the undersigned at 306-203-3184.

Sincerely,

Bruce Dahl, B.Sc.
Environmental Project Officer
Water Security Agency
